Into the world of foraging for wild herbs
An immersion into the Sardinian traditional medicine
A journey into the perfumed Mediterranean landscape with recognition of the medicinal and edible plants used in the historic Sardinian tradition of self healing. We collect herbs and prepare oleolites to be able to heal ourselves emotionally and physically and pamper ourselves with a final relaxing self-massage.

Where?
In the countryside, 2.5 km from Angels cost sea and 20 km east of Cagliari.

Our Experiences 2023
An immersion in permaculture as a methodology of design of thriving ecosystems. We will together make a smudge stick to burn for propitiating good vibes as in the traditional Sardinian rite of S'affumentu.

A walkabout with an on field illustration of the ethics and principles of permaculture. An immersion in permaculture as a methodology of design of thriving ecosystems. We will together make a smudge stick to burn for propitiating good vibes as in the traditional Sardinian rite of S'affumentu.

Walk around the traditional almond groves. A slow stroll among the scattered almond trees to discover the history and symbolic meanings of this energetic and mystical fruit. We collect almonds, taste traditional sweets and relax with self-massages with almond oil-based oleolites.

Into the world of almonds

What we offer?
- **Hospitality** in houses and glamping tents
- **Experiences:** Regenerative activities, in every season in half-day or full-day versions with picnic
